

Wellington Street / Panorama Drive road upgrade

The Wellington Street / Panorama Drive road upgrade program is a road duplication project servicing a key Council controlled north-south arterial link in the centre north of Redland City.

In September 2020, Redland City Council approved funding for the first stage of the three stage program.

This program will bring numerous benefits to the people of Redlands Coast including improved journey to work times, decreased peak hour congestion, and increased vehicle, cyclist and pedestrian safety.

The project is also expected to create nearly 70 jobs for Redlands Coast residents and another 70 for other Queenslanders.

The Australian Government will provide \$15 million towards intersection upgrades along the route through the Infrastructure Investment Program and the Queensland Government is providing \$465,000 through the Cycle Network Local Government Grants Program 2021-2022.

The three stages of the program include:

Stage 1 - Boundary Road to South Street, Thornlands (2020-2024)

Stage 2 - South Street to Bay Street, Thornlands/ Cleveland (TBC*)

Stage 3 - Bay Street to Russell Street, Cleveland (TBC*)

Stage 1 will involve road duplication along Panorama Drive from Boundary Road to the Wellington Street intersection and on Wellington Street from the Panorama

Drive intersection as far as South Street, Thornlands. Intersection upgrades at Ziegenfusz Road/Panorama Drive and Panorama Drive/Wellington Street will deliver greater road capacity and safety benefits.

Minor disruptions are likely to occur as works progress and advance notice will be provided to road users during these times. While disruptions are expected, much of the work will allow for the existing road to continue to carry traffic while the new lanes are constructed on the adjacent road reserve. Safety is a key priority for Council and there may be some reduction in posted speed limits during construction.

Stage 2 will see the road duplication continue along Wellington Street from South Street to Bay Street, and Stage 3 from Bay Street to Russell Street.

* **Stage 2** and **Stage 3** works are subject to future Council approval, availability of Federal and State grants and other city-wide capital works priorities.

Georgiou Group is currently delivering the \$42.7 million Stage 1 contract to upgrade Wellington Street / Panorama Drive for client, Redland City Council.

The project involves upgrading a 2.3 km section of Panorama Drive / Wellington Street between Boundary Road and South Street from 2-lanes to 4-lanes, as well as intersection upgrades at Ziegenfusz Road and Panorama Drive / Wellington Street.

Scope of Works Includes:

- Public utility relocations (power, water, communications);
- Drainage upgrade works;
- New and improved pavements;
- New and improved footpaths and street lighting; and
- Landscaping and rehabilitation.
- Works commenced in March 2023, with expected completion set for late 2024.

Once complete, the works will provide greater road capacity and safety benefits to road users.
