

# Nicklin Way Safety and Capacity Improvements

The Department of Transport and Main Roads (TMR) has completed design work to improve safety and capacity on Nicklin Way between Koorin Drive and the Mooloolah River at Minyama.

## Location

Nicklin Way between Koorin Drive and the Mooloolah River, Minyama.

## Benefits

The project will significantly improve:

- Bus travel time and reliability along this section of Nicklin Way
- Bike rider safety and connectivity
- The road's current condition and skid resistance to create a smoother ride for all road users.

## Funding

\$2.5 million is allocated for the bus priority lane upgrade as detailed in the Queensland Transport and Roads Investment Program 2019-20 to 2022-23

\$366,000 is allocated for the bike lane and safety improvement works under the Department of Transport and Main Roads' Targeted Road Safety Program.

Resurfacing activities will be funded through Department of Transport and Main Roads' program maintenance budget.

## Project Information

TMR has completed design work to improve safety and increase capacity along a section of Nicklin Way, between Koorin Drive and the Mooloolah River, Minyama.

GRC Civil were awarded as the principal contractor for the works, which commenced construction in the second quarter of 2020. They are responsible for undertaking the works while maintaining quality, environmental and safety commitments.

## The Program of Work Includes

- Providing a dedicated southbound shared bus priority

- STRUCTURAL

## OUR STORY

GRC Civil is a Queensland owned and operated Civil Construction and Project Management business that has been operating for over 13 years, working locally and interstate. We undertake projects for all types of clients, including state and road authorities, councils, developers and builders.

## WHAT WE BUILD

A big part of GRC's success is the ability to perform and manage a large range of civil works with demonstrated expertise in:

- Civil Stormwater
- Road Construction
- Bulk Earthworks
- Detailed Earthworks
- Civil Marine
- Traffic Management
- Traffic Signals
- Road Lighting

## SUPPORTING SERVICES

To supplement our experienced construction crews, we have in-house project managers, RPEQ engineers, Traffic Management Designers and Environmental advisors to provide project assistance and the following services:

- Project Management
- Traffic Management Plans
- Form 15 Certification
- Traffic Guidance Schemes
- Form 16 Certification
- Erosion and Sediment Plans
- Innovation through Construction

## RECENT PROJECTS

- Nicklin Way Bus Priority, Sunshine Coast
- Camden & Sherbrook Road Realignment, Willawong
- Foxwell State College External Works, Coomera
- Kingaroy Hospital Civils, Kingaroy
- Smithfield Intersection Signalisation, Cairns
- South Pine River Stabilisation, Strathpine

and bike lane on Nicklin Way between the Mooloolah River bridge crossing and just south of the Jessica Boulevard intersection

- Constructing dedicated on-road bike lanes northbound on Nicklin Way between Lutana Street and the Mooloolah River bridge crossing and southbound between Jessica Boulevard and Koorin Drive
- Resurfacing both directions of Nicklin Way from Koorin Drive to the Mooloolah River bridge crossing.

### Works will Involve

- Converting the existing wide road shoulder used for informal on-street parking located just south of the Jessica Boulevard intersection and removing some on-road parking northbound to accommodate the new on-road bus and bike lanes on Nicklin Way through this section
- Removing some on-road parking on both sides of Nicklin Way to improve road safety through reduced conflicts between parked cars, through traffic and bike riders, improving sight lines for motorists entering Nicklin Way from retail and business driveways.
